Web3
Proactive

Web3 is characterized by blockchain technology,
enabling decentralized decision-making and ownership.

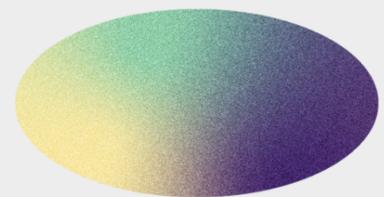

The Emergence of Community & Governance 3.0 and the New Economic System

- Centralized approach to communication and decision-making
- Limited communication channels, geography-based
- Profit-driven, few individuals in charge

- Decentralized approach to communication and decision-making
- Social media platforms, decentralized interaction
- Customer-centric business models, focus on satisfaction and engagement

- Blockchain technology and DAOs, more control over decision-making and ownership
- Decentralized approach to decision-making and ownership,
- focus on creating value for all stakeholders

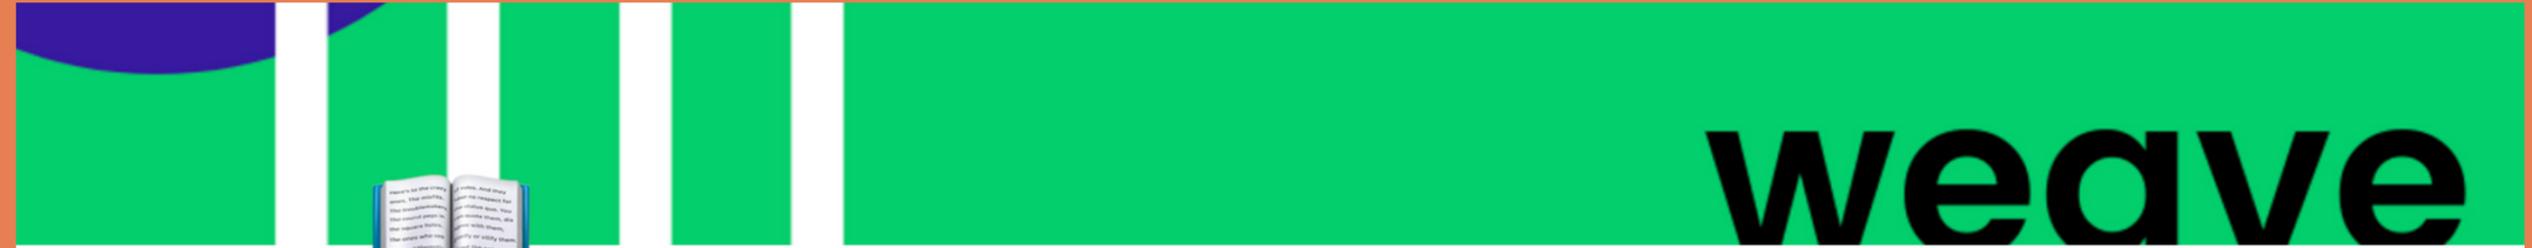

**COMMUNITY
& DAO**

NEW WAY OF ORGANIZATION & COORDINATION

Community is at the heart of the web3 ecosystem, built around DAOs that promote transparency, inclusivity, and equitable distribution of decision-making power.

GOVERNANCE

DECENTRALIZED GOVERNANCE

A key enabler of the new economic system and ecosystem. It facilitates more equitable distribution of resources and decision-making power, and helps to build a more democratic and inclusive society. Decentralized governance also helps to foster greater trust among stakeholders, as it ensures that the decision-making process is transparent and accountable.

FUTURE OF BUSINESS

A future of business lies in community-based models that prioritize relationships, shared values, and inclusivity. This not only leads to increased profitability but can also have a positive impact on society and the environment.

With the emergence of web3 and DAOs, community-based business models are more accessible than ever before, making it an exciting time for the future of business.

SUCCESS

ALL IN HUMAN ELEMENT

Success in the new system depends on human interactions and active participation of all stakeholders, requiring collaboration, coordination, and shared goals.

To enable effective community and governance in web3, we need to focus on building strong relationships, fostering trust, and promoting transparency.
